9 Forwarded, with compliments, to the Secretary to Government, Development Departments.

10 2. The lumpsum of Rs 1,000/= required is in connection with the designs for the (1) Combined Serum Institute and (2) lay out of the City Market to facilitate cold-storage for fruits, etc., It has therefore to be met out of the grant of the Agricultural Department.

11 3. The grant of Rs 80,000/= sanctioned for the construction of a Building for the Serum Institute at Hebbal, cannot be worked out in full before June 1930; the sum of Rs 1,000/= required for the deputation of Mr. Krumbiegel may perhaps be met from the above grant, to which it would be a legitimate charge.

15 From the standpoint of the Serum Institute the proposed tour would in my opinion be a pure waste of Government money. Even were it advisable to obtain information the Consulting Architect is in my opinion not an officer who can do this in a satisfactory manner. As a matter of fact he has not sought or got all the help which is available in Bangalore. As an example I may point out that I have not been approached for advice.

16 My own strong feeling is that a committee consisting of Dr. Subba Rao, Dr. Karve, Dr. Sweet, and myself could fix very definitely the requirements of the combined Institute and could decide to what extent savings in space and equipment can be made. I understand that Dr. Sweet has with him large numbers of plans of Institutes for the manufacture of Sera and Vaccines which would give us about all the outside assistance we require.

17 While I do not for a moment question the Chief ~~Engineer~~ Engineer's courtesy and good faith I feel it has been rather unfair of him to propose a reappropriation of sums sanctioned in the budget of a department under my control without first consulting me. I am strongly apposed to a reappropriation from the source pointed out by the Chief Engineer for the purpose mentioned, ~~those~~ more especially as I am finding it practically impossible to meet the ~~growing~~ urgent needs of the department this year from the sanctioned allotments.

D. O.
No. 659.

Office of the Consulting Architect with the Government of Mysore,
Lal-Bagh, Bangalore (India).

G. H. KRUMBIEGEL, F.R.H.S.,
Consulting Architect.

Dated February 21, 1930.

CA.3113

Dear Sir,

In connection with the designing of the Combined Serum Institute I find some difficulty to satisfactorily meet the requirements of the three different sections and at the same time working up the designs and arrange the future working on an economical basis to prevent overlapping. I am therefore anxious to see the Serum Institutues which have recently been erected in Belgaum, Bombay, Calcutta and Madras and I request that a deputation be sanctioned for me to inspect these places.

The journey has also another object namely, the layout of the City Market at Bangalore to afford facilities for the Fruit-Growers' Association to market their own fruit direct istead of selling to contractors. For this purpose the necessary Store-rooms, Packing rooms, space for grading and above all proper Cold Storage arrangements are necessary. These arrangements are fairly perfect, I believe, both in Bombay and Calcutta, and in Calcutta there is also a Refrigeration Train arriving daily or alternate days from Quetta with fruit. Before designing the accommodation in the Market and working up details for the formation of this Fruit-Growers' Association on cooperative lines, I shall have to study these Cold Storage arrangements in those places.

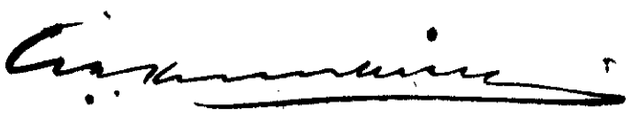
I therefore request that sanction may be given to for 1½ First class fare and a III class fare with a daily allowance of Rs.25/- for me for the 18 days halting in those various places together with incidental expenses for the servant amounting in all approximately Rs.1,000/-. Since the expenses connected with the hotels, taxis and other incidentals will probably be much more than the

amount

amount allowed for above, I shall be agreeable if the amount of Rs.1,000/- is sanctioned as a lump sum contribution from Government.

I desire to leave immediately after the Economic Conference meetings on the 19th of March and the journey will occupy about seven days in travelling and 18 days in halt so that I should return in the middle of April. I may mention that I have spoken to the Dewan Sahib in this matter and he fully agrees that it is desirable that I should inspect these institutions so that the plans and arrangements may be up-to-date and any mistakes be avoided at the outset.

Yours sincerely,



R. Ranga Rao, Esq., B.A., B.L.,
General Secretary to the Government of H.H. the Maharaja of Mysore.

J. V. KARVE, Esq., M.B., ch.B., (Edin.), D.P.H., (LONDON),
Director of Health with the Government of His Highness the Maharaja of Mysore,
Bangalore.

To

The Secretary to Government,
Development Departments, Bangalore.

SIR,

In inviting your reference to Government Order No. D. 11264-9/G.O. 103-29-1 dated the 9th April 1930, constituting a Committee of five Members to go into the question of a design for a combined Serum Institute, I have the honour to observe that I have been sent a copy of the order, though I am not on the Committee. I may point out that the combined Serum Institute relates chiefly to the Health and Agricultural Departments and how the head of the Health Department happens to be excluded from the Committee is hard to understand. I may incidentally mention that Dr. Sweet who is on the Committee will be away for over 6 months on leave from about the 10th of May. When he goes, there will be no one to watch the interests of the Department of Health in the Committee as at present constituted.

Vide Routine note subs. Ref of 12/4.

I have the honour to be

Sir,

Your most obedient servant

Director of Health.
